Spooks, Food And Fun For Canal Point Carnival

Just a little before sundown, Saturday evening, October 31st there is only one place where it is safe in Canal Point. There is safety in numbers and everyone is planning to be at the spookiest, but the most fun-filled of all PTA Halloween Carnivals in well—at least since October 31st of last year.

Prepare to get this gala evening underway by joining in the cafeteria of the school which will open promptly at 5:30 p. m. All of you grown up witches and goblins tighten your belts about 4 o'clock, help dress all the Juniors for the occasion, crawl into the old four wheel broomstick and come a flyin' to the school for an evening meal of the most delicious hamburgers, hot dogs, chili, pies, cakes and other pastries any ghost has ever smacked his lips on.

After you loosen your belt about 3 notches from all of those hamburgers, and begin to think of that 30 minutes rest after eating, there is no better entertainment anywhere than will be found in the school auditorium. Here witches, goblins and you name it, some experiencing for the first time (preschoolers) this role of making like a ghostus up to veterans of the trade (through the 6th grade) will entertain by way of a parade.

This fun-filled halfhour will be as a contest for preschoolers and each of the six grades, with prizes of Kennedy half-dollars, awarded in each category for those with attire judged to be the most original, the most appropriate for the occasion, the funniest, and the prettiest.

At about 7 o'clock, after the food has begun to settle and a jovial mood has gripped everyone, the program will switch to the grounds in front of the school, where children and adults alike can both entertain and be entertained. To in-

sure an evening of fun for all, each of the grades will have concessions that include such things as a dart throw, bean bag toss, pony rides, fishing, cake walking and even voting on your favorite political figures.

As the evening proceeds if the popcorn, snowballs, candied apples, brownies, candy, etc., sold on the grounds does not fill the empty space in the midriff, which often occurs when people are having an active evening of fun, then the same cafeteria which served you dinner will be open to fill the gap. Also to provide for future needs of all, a country store will be erected on the spot to sell you everything from A to Z, so look about and acquire those bargains.

For those who are a little weak of heart and need to have a moments relief from the crowd, a nice moonlight hayride might turn the tide as you whisper sweet words into Mamma's ear or better yet maybe a 5 minute rest while Junior is frolics in the hay.

Whatever the case may be and whether you have had a hard day at the office, in the field or at home, and a crown is all you can muster, Come On—Come All to the Canal Point Halloween Carnival and you will undoubtedly return home with a smile.

In Florida... at a picnic, beer is a natural

When you're relaxing at your favorite outdoor beauty spot with friends or family, and your thirst is whetted by fresh air and exercise—that's the ideal time for a cool, refreshing glass of beer. In fact, you can name your recreation—swimming, hiking, or just watching TV—and chances are nothing in the world fits it quite as well as beer.

Your familiar glass of beer is also a pleasurable reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.

In Florida...beer goes with fun, with relaxation

WHAT PRICE EDUCATION FOR 74,000 CHILDREN!

WHAT 20¢ PER MONTH WILL BUY IN FUTURE EDUCATION

• Because of litigation and controversy, the 20 mills recommended by the Board of Public Instruction to provide buildings, classrooms and facilities were not levied. The current millage is only enough for immediate needs of our schools. The capital improvements made possible by this \$26,750,000 bond issue will help meet the recommendations of the State Department of Education Survey Team, school principals and the new accreditation standards.

• The money received from the bond issue will help meet the ever-increasing school population — 72% since 1957 — with a shortage of classrooms and other facilities TODAY, even greater shortage next year. There are 148 portable classrooms in use today, with 8,000 children in substandard classrooms.

• Money from the bond issue will finance: 18 new elementary schools; 2 junior high; 1 senior high; 1 jr-sr high; 357 new school classrooms; 152 classrooms added to existing schools; 10 new science labs, 26 science labs added to existing schools; 38 new school and 29 old school homemaking, industrial arts and libraries; 26 music rooms; 4 gymnasiums; 25 cafeteriums.

* WHY IT WILL COST YOU ONLY 20¢ PER MONTH

For some homeowners it is more, for some it is less, but for the owner of a \$12,000 home assessed at 60¢ or \$7200, with a homestead exemption of \$5,000, there is \$2200 taxable valuation. An average cost of 1.09 mills for the bond issue (\$1.09 per \$1,000) brings the average annual cost to \$2.40 over the 20-year period. 24 CUPS OF 10¢ COFFEE! Isn't it little enough to assure a good education to our children?

For The Price of Only 2 Cups of Coffee Monthly* You Will -

☞ Provide proper Education for the 74,000 school children expected in 1970 in Palm Beach County-

☞ Provide FULL SHARE of Education to 4,000 new students EACH YEAR-

☞ Eliminate NEED FOR DOUBLE SESSIONS and OVERCROWDING NEXT YEAR-

☞ Provide 509 new classrooms, the estimated minimum needed by 1970, with county population of over 400,000-

☞ Plan for the 8% annual school population increase ... 72% increase since 1957

☞ Provide 22 NEW SCHOOLS and 75 additions and alterations to EXISTING SCHOOLS.

☞ Help attract business and industry with sufficient good schools ... and educate properly the children of those who come here-

☞ All Bond Money to be used only for new schools, additions and alterations of existing facilities, equipment and sites.

MEDICAL ASSISTANCE FOR OUR SENIOR CITIZENS HOLLAND

strongly supported medical assistance to Florida's senior citizens through the KERR-MILLS BILL, which covers both hospital and doctor bills. It protects those who have the need and is financed by our states with Federal support.

Medicare, the other proposal, offers only limited hospitalization, financed by an increase in Social Security taxes. It covers all senior citizens, rich or poor, but it does not cover doctor bills.

Florida's entire delegation in Congress voted for the Kerr-Mills approach. Our state legislature approved it for a two-year trial period, as did 36 states and territories.

Do the People of Palm Beach County Have EQUAL Representation?

Examine These Reported Facts:

1. Is my opponent the "Boss" of the clique which has split the County Commission after more than 20 years of model government?
2. Is it the duty of my opponent to spend so much time in collecting \$216,000 for county participation in the World's Fair . . . a "riches to rags" promotion? (And he's getting ready to ask for more!) Stop and think what an outstanding promotion COULD be done for the County and its Municipalities with that amount of money.
3. Where are the major roads my opponent promised for North Palm Beach County?
4. Why my opponent's secrecy to the County Commissioners on his trips seeking new industry? When asked by a fellow Republican Commissioner at an open meeting, he REFUSED to divulge any information . . . though these trips are financed by COUNTY DOLLARS! Contrary to his statements, will he tell us of ONE industry which has located in this county through HIS efforts?
5. My opponent takes credit for establishing an Internal Audit of county funds. Why did he REFUSE at the regular County Commission meeting Sept. 28th to second a motion by a fellow Republican for an audit by the Internal Auditor of a lease operation at the airport? WHY?
